

# BLTR Back Leg Tilt Rise

**Probably the most comfortable chair in the world!**

The BLTR is a new action which gives separate control of the backrest(B), legrest(L), the tilt-in-space(T) and the rise function(R).

Deep foam seating for a comfortable chair

Fully reclined for a sleeping bed like position

Monza style chair in Ultima Chalk PU faux leather

Tilt in Space but with fully adjustable leg rest angles

We use an 8 button handset arranged in 4 pairs to enable infinite multi positional control including a flat lift.

High get out rise position possible

Flat lift
